

EMMETT MCCARTHY
FOR GEORGETOWNFormer Tech Star Will Play
with Hilltop Eleven.

Emmett McCarthy, the former Technical High School football star, who put up a great game for Wesleyan College last fall, will be a candidate for the Georgetown "Varsity" football team this fall. This was learned last night from one close to the former scholastic star.

Not only in football does Emmett put up a good game, but in basketball and baseball he made his college letter.

The Hilltoppers are fortunate in obtaining this gridiron star. Although a freshman at the Northern college last fall, he made the "varsity" eleven, playing tackle and end. It was rumored that McCarthy would enter Yale, but as Washington is his home he has decided to go to Georgetown.

McCarthy, if he makes the Georgetown eleven, will have as a side partner his Wayne Hart, a former team mate, both boys having played together at Technical High School.

McCarthy is twenty years old, stands six feet two inches, and weighs 185 pounds.

Walter Brady, in charge of the Flinders crew which is to tour through the territory assigned to the local E-M-F branch demonstrating this car, started early yesterday morning. Winchester, Va., will be the first day's run. From there the trip will be made in leisurely fashion through Virginia and North Carolina.

The Marion Motor Car Company, of this city, has loaned the premises at 1119 Fourteenth street, which are now being fitted up for show room purposes.

H. T. Offenderling has purchased an Overland touring car, and Dr. Emmett and Mr. Daw have bought roadsters from the Overland Washington Company.

This is the season of the year when it is no uncommon sight to see cars standing at the street curb with clouds of steam issuing from the radiator cap or overflow pipe. Overheating of the engine may be caused by many things, as, for instance, insufficient lift to the exhaust valves. Either too weak or too rich a mixture burns slowly and gives up a larger proportion of heat to the cylinder wall than a perfect mixture does. A poor spray overheat, as does poor oil and likewise the too constant use of low speed.

A K-R-T was one of the three cars in the six-day endurance run of the Wisconsin State Automobile Association to come through with a perfect score.

Boyce Hough, formerly of this city, who now represents the Commer truck in the Middle West, is in the city for the remainder of the week. He stopped off on his way from New York to Chicago, his headquarters.

Merchants through the West are replacing their horses with trucks, and within the next three years a horse in the delivery service of any large firm will be a curiosity, said Mr. Hough yesterday.

If the Glendon tour is finally held this year over the new route proposed—that is, from New York to Jacksonville, Fla.—there is a bare possibility of this city being made one of the night corners. The tentative route from the metropolis to Atlanta, Ga., is over the proposed national highway, and the nearest point that this route comes to Washington is Winchester, Va.

The running of the contest under grade 4 A. A. means that it will be more in the nature of a pleasure trip than anything else, and if each day's run is not made too far or too fast it should be an inducement for many private owners to participate.

Samuel Prescott and family have left in their model 38 Buick for a trip up through the North. They expect to be gone about three weeks and go as far North as Portland, Me., before returning to Washington.

GAY PARTY BY OFFICERS.
Six Created by Investigation of
Event on the Omark.

The reports of gay parties given aboard the training ship Omark, as printed yesterday in The Washington Herald, has created a stir in District Militia naval circles and among a certain social set in this city.

Members of the naval militia recall a little affair given July 17 by an officer in honor of his birthday. After several hours aboard the vessel, the members of the party, including two women, left in an automobile of one of the officers and went to the women's apartment. On the way they stopped at a luncheon and took with them a box of eatables.

Thinking themselves safe in their own homes, the men and women raised their voices in loud song and laughter, disturbing the other occupants of the building, who next day promptly lodged their complaints with the landlady.

The condition of the nine men of the Omark who were taken sick last Monday with ptosis suddenly was reported as improved last night. They are at the Naval Hospital, where their condition was at first regarded as serious.

ON PANAMA FORTSAll Sites Recommended by
Board Approved.

Major Gen. Leonard Wood, Chief of Staff of the army, told President Taft yesterday that work was commenced this week upon the fortifications at the Pacific terminal of the Panama Canal.

Gen. Wood has just returned from a month's inspection trip to the Canal Zone to consider the sites selected for the fortifications by the board on the fortification of the canal. He approved all of them, making only a few minor changes in their plans.

Work will shortly commence for the preparation of the ground for the big coast-defense guns. Orders have been placed for the guns, and it is expected that they will be ready for mounting by the time that the fortifications are sufficiently advanced to receive them.

Troops will be sent to the canal before the fortifications are completed. It will not be necessary at the outset to build barracks for the troops, as there are some buildings along the canal in good condition which would, Gen. Wood believes, make satisfactory temporary barracks for the soldiers.

Up to a late hour last night, as far as could be learned, men were searching the woods about Seneca and Claitor's burg, but the weather hindered their work. The man hunt will be resumed early this morning, and every attempt will be made to bring the fugitive to bay.

Plant Wrecked.
Hamburg, Germany, Aug. 2.—An explosion in the cement works of Wulff & Stevenson today wrecked their plant, killed several workmen, and injured many.

Breakfast Burn.
Burlington, N. Y., Aug. 2.—Thousands of breakfasts were up in smoke and flames early today when a fire caused \$25,000 damage to the plant of the United Cereal Mills, Limited, manufacturers of breakfast foods. The fire started in an 800-bushel bin of corn flakes.

Aviator Falls.
Chicago, Aug. 2.—A big biplane being operated by Frank Bellair, of Boston, dropped to the earth when the operator lost control of the machine, today, falling into a crowd of spectators. Four were injured, two of whom were children. The aviator was badly shaken up and was cut and bruised. The machine escaped with slight damage.

Peru May Fight.
Lima, Peru, Aug. 2.—Peru is moving troops on the Chilean border to-day, and the territorial dispute has broken out in a little affair given July 17 by an officer in honor of his birthday. After several hours aboard the vessel, the members of the party, including two women, left in an automobile of one of the officers and went to the women's apartment. On the way they stopped at a luncheon and took with them a box of eatables.

AWAKES TO FIND
ROBBER IN ROOMWoman Terror-stricken by
Nocturnal Visitor.

Awakened by a noise in her room, Mrs. Josephine Janney, of 123 F street northwest, on arising to investigate early yesterday morning, was terrorized to find herself face to face with a masked burglar. Stunned by the sight, the intruder, Mrs. Janney could give no outcry until the man had made his escape. Investigation disclosed that the man had robbed the apartment of a pocketbook containing \$3 and some trinkets. Although a diligent search was instituted throughout yesterday for a clue as to the identity of the man, the police up to an early hour this morning were as much at sea regarding the case as when they first began working on it.

"Umph," grunted the man as he found himself confronted by the terrified woman. Then, apparently conscious that she was stupefied by fear, the man turned and made for a rear window. He was last seen making his way down the fire escape.

Recovering shortly after the burglar made his exit, Mrs. Janney turned on the light in the apartment and began to investigate as to how much the intruder had taken with him. Everything had been turned topsy-turvy by the man, who evidently expected to find more valuables hidden about the several rooms. He had evidently made a searching probe into the entire effects of the apartment and was about to conclude his search when detected by Mrs. Janney.

Miss Alice Kinker, a clerk in the Census Office, reported to the police last night that her apartment in the Cairo apartment house was entered some time yesterday and that valuable papers and deeds had been stolen from a bureau drawer. It is thought that the theft was committed by some personal enemy of the young woman.

Some of the fair-haired woman's advantages: \$200.00 schoolhouse, immaculate dress, city water and sewer mains, gas and electric service; so far to any part of city.
